ACADEMIC LEADERSHIP

Founder, *COMputation Island*

An online community for computational communication research (CCR) based on WeChat Feb 2021 - present

- Organized and launched this platform to share cutting-edge research, facilitate academic discussions, and promote data and information resource exchanges among CCR students and scholars in China
- Led and managed the platform maintenance, editor recruitment, editorial work, and platform outreach
- Wrote and co-edited articles to introduce computational communication research, computational methods, and introductory textbooks for CCR study to Chinese audience

Co-chaired panel “Video-as-data in computational communication”

International Communication Association’s 72nd Annual Conference May 2022

- Proposed this panel with Prof. Kaiping Chen from UW-Madison
- Invited international scholars from ten institutions to discuss the frontiers of developing and applying computational methods to analyze large-scale video datasets to study political and science communication.

Co-chaired panel “Propaganda in the computational age: disinformation and beyond”

International Communication Association’s 70th Annual Conference May 2020

- Proposed this panel with Prof. King-wa Fu from The University of Hong Kong
- Invited international scholars from seven institutions to present their latest works in computational propaganda and disinformation.
